specified in column 4 of the application for fitness certificate and size. 5. Period for which the certificate is issued 6. Nature of defects. If any a) Foundation and basement b) Superstructure c) Doors and Windows d) Wood work wrought and put up e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note: The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate.	하는 생생한 경향에 가는 마시 에 가장 마음이 들었다. 그 그를 마음이다. 1985년 - 1988년 1985년 - 그는 그들의 사용하는 것이다. 그는 그들은 그는 그리고 있다.	Ent, Hall-1 office-1, Class rooms -17
application for fitness certificate and size. 5. Period for which the certificate is issued 6. Nature of defects. If any a) Foundation and basement b) Superstructure c) Doors and Windows d) Wood work wrought and put up e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificat	병하다 경기를 받는다. 	Play Ground - 1, Boundary wall as per
and size. 5. Period for which the certificate is issued 6. Nature of defects. If any a) Foundation and basement b) Superstructure c) Doors and Windows d) Wood work wrought and put up e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	는 이용하다는 경험적으로 되었다. 그는 사람이 그는 사람들은 경험을 받는 것이 되었다. 	7 chool rooms,
is issued 6. Nature of defects. If any a) Foundation and basement b) Superstructure c) Doors and Windows d) Wood work wrought and put up e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	아이들 아이들 때문에 가장 아이들 때문에 되었다.	
is issued 6. Nature of defects. If any a) Foundation and basement b) Superstructure c) Doors and Windows d) Wood work wrought and put up e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate		
is issued 6. Nature of defects. If any a) Foundation and basement b) Superstructure c) Doors and Windows d) Wood work wrought and put up e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	5. Period for which the certificate	5 years
a) Foundation and basement b) Superstructure c) Doors and Windows d) Wood work wrought and put up e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	is issued	
b) Superstructure c) Doors and Windows d) Wood work wrought and put up e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	6. Nature of defects. If any	No. appect
c) Doors and Windows d) Wood work wrought and put up e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	a) Foundation and basement	No. Defect
e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	b) Superstructure	No Defect
e) Roof g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	c) Doors and Windows	No. Defect
g) Miscellaneous (Cracks, etc.) 7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	d) Wood work wrought and put up	No. Defect
7. Any major defects noticed which will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	e) Roof	No. Defect
will render the building unsafe in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	g) Miscellaneous (Cracks, etc.)	None.
in any manner 8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	7. Any major defects noticed which	No.
8. Whether maintenance works have been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	will render the building unsafe	None
been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	in any manner	
been done properly 9. Whether the structure is sound or not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	8. Whether maintenance works have	Les
9. Whether the structure is sound or NO. Rounding, Good for Conducting Classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	에 가는 사람이 되었는 사람들이 사람들이 있는 것이다. 그런 사람들은 사람들은 사람들이 가르는 사람들이 되었는데 보고 있다.	
not for conducting classes Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificate	면. 이 이번 살으겠다면 하는 이 젊을 하는 그리고 싶을까요?	NO Royaling, Good for conducting Class
Note:- The stability of the structure should be examined also with reference to location. Altitude, intensity of wind, exposure of flood etc. 2. Any additional observations if deemed necessary for the certificate may be furnished separately with this certificat	보이 이 그 일본 경기 이 기를 맞았다.	
중 문에는 하고 여행들이 이 양경 하나에 대학하는데 하는 사람들이 하는 이 바로 하는데	Note:- The stability of the structure should be	
distribution of the control of the c	도 있는 그는 기업을 보고 그 가능하는데 그래요? 사용하는 이 등을 하는 그들은 그렇게 보고 있다.	<u>CERTIFICATE</u>
Certified that the school building was inspected by me on 1912/2019 and found to be fit/unit to conduct classes, for the period		그리 작업하다 하고 하늘 바다 마다 보다는 이 목표를 하는 것이 되었다.
